

RIVER STONE LODGE

A Road less travelled...

An immersive experience of life in the countryside. Experience the elements of nature in their splendor. Truly a Spiritual, soothing to the heart & mind experiential get away.

THE LODGE

The Lodge set in the countryside, distanced from any human inhabitation and all roads end here. It is spread in 30 acres surrounded by two rivers and some native forest. The views of open landscapes, clean air, sunrise, sunsets, moonlit nights and a private sunset cruise on waters of the Parwan river are worth experiencing.

Every little step we take is towards creating a self-sustained ecosystem with a negative carbon footprint so that we are in harmony with mother nature. We are consistently increasing green cover by setting up orchards and creating sustainable diversity in the food we grow.

Where the wind blows...

The main building is a plantation bungalow with veranda, and a Victorian bedroom. The cottages are set apart and surrounded by orchards.

The four stone cottages are inspired from local village architecture and are built with locally available materials and traditional techniques with all the modern comforts.

Every cottage has private courtyards and open to air showers and large windows open on to the fruiting trees allowing for natural breeze and a fascinating tryst with nature.

JEEP DRIVE IN THE COUNTRY SIDE

PICTURESQUE SUNSET CRUISE

- PICNICS AND HIGH TEA BY THE RIVER
